

PRESCRIPTION MAGIC

ScanCARE® Prescription Magic

has been designed for today's medical practice to enable the creation of digital prescriptions in real time. By utilising Tablet PC technology, Doctors and medical professionals have the power to hand write prescriptions directly into a document system.

Features

- Our 'digital paper' is identical to traditional prescription stock
- Touch screen to make creating new prescriptions simple & secure
- Multiple prescriptions in a traditional 'Consult List'
- New or repeat prescriptions can be created quickly by using an archived prescription as a template
- 'At a glance' status check on prescriptions
- Preferred drugs appear simultaneously as you write on the screen, all while you are conversing with your patient
- Loaded with an extensive drug database
- Prescriptions can be signed before or after printing
